

KRIEGHOFF

SEMPRIO

SEMPRIO: REPEATING WITHOUT CHANGING YOUR GRIP!

To operate, the barrel assembly is pushed forward to eject the empty cartridge case. Pulling the unit back feeds the next round from the magazine and the Semprio is ready for an instant follow up shot.

MILESTONES IN THE HISTORY OF THE KRIEGHOFF COMPANY

1900

"Die Läufe schießen – der Schaft trifft" – (You shoot with the barrel, you hit with the stock) – Ludwig Krieghoff's maxim led to his patented custom stock method.

1905

Krieghoff's first adjustable insert barrel is patented.

1906

A pneumatic device to prevent "doubling" on drillings with a single trigger is presented.

1925

Krieghoff introduces lightweight aluminum alloy as gunmaking material.

1926

The first over-and under combination rifle/shotgun with manual cocking and de-cocking slide appears in the Krieghoff catalog

1930

Krieghoff manufactures the world's first lugless shotgun. The elegant shape and low receiver are extremely impressive.

1932

Krieghoff's semi-automatic rifle with gas-operated loading mechanism and block action debuts.

1956

Patent for a safety catch for breech-action guns.

1960

Patent for a lock with manual cocking system and cocking slide.

1967

Patent for free-floating barrels for combination guns.

1968

Patent for a single trigger for multibarrel guns.

2007

Krieghoff's patented in-line repeating system sets new benchmarks for repeating rifles.

1982

Patented Krieghoff scope mount.

1992

Krieghoff's Combi-Cocking Device and automatic hair trigger release are introduced and patented.

1992

The Universal Trigger System is patented.

1996

The muzzle adjustment with an adjustment wedge is patented.

2002

Optimized Krieghoff Optima Combi-Cocking device is granted a utility patent.

TRADITION. INNOVATION.

Founded in 1886, Krieghoff has been family-owned for five generations now. Our experience in manufacturing top-quality hunting guns and competition shotguns provides ideal conditions for revolutionizing the repeating rifle to facilitate repeating without losing sight of the target or having to change hand positions.

A gun that meets all hunting requirements and integrates all state-of-the-art features. Without compromise.

SEMPRIO: RADICALLY DIFFERENT

Burled walnut wood available in eight progressive grades

Thumb hole stock available as an option

Softtouch synthetic coating available options: "Forest Green" and "Blaze Orange"

SEMPRIO REPEATING RIFLE

With its elegant ergonomics, the Semprio is unique

- Combi-Cocking Device
- Take down (No tools required)
- "Click-and-Go" sling swivel
- Prepared for Tip-off mount (Krieghoff Pro Mount)
- Black anodized action finish
- Standard wood in oil finish
- Supplied in Semprio GunPack

"PREPARED FOR ANYTHING"

My name is Michael Schneider. I was born in Germany and I'm a professional hunter in British Columbia, Canada. The Krieghoff Semprio is my trusty companion because it's reliable and I can fire off up to four shots in tricky situations without having to set the gun down. I can quickly and easily change the barrel and thus the caliber, for example if I have to change from a hunting situation to searching for wounded game.

When we fly into the wilderness for several weeks on end, with one gun, two barrels and three spare magazines, I'm prepared for anything I might find out there.

Michael Schneider
Michael Schneider

TRUE TAKE DOWN

"Take Down" - by definition, that's taking apart for transport without the need for tools. The Semprio is easily disassembled in a few simple steps. Reassembly is just as fast and easy. No tools required!

CALIBER INTERCHANGEABILITY

Changing calibers is fast and easy thanks to the genuine take-down system. The point of impact remains unchanged throughout the change of the entire barrel set. Even changing the bolt head from magnum to standard or mini is accomplished without tools, thanks to the plug joint.

AVAILABLE CALIBER

Caliber for barrel lengths of 55 cm (21 1/2") cm: .223 Rem., .243 Win., 6,5x55 SE, .270 Win., 7x64, .30-06 Spr., 8x57IS, 9,3x62, .375 Ruger

Caliber for barrel lengths of 63 cm (25"): 7 mm Rem. Mag., .300 Win. Mag

Caliber for barrel lengths of 50 cm (19 1/2"): .308 Win.

MAGAZINE

The Semprio in standard calibers has a five-shot capacity; four in the magazine and one in the chamber. Magnum calibers have a total capacity of four cartridges.

SEMPRIO FEATURES

In addition to its revolutionary in-line repeating action, the Semprio is equipped with all the latest features.

COCKING DEVICE

The Krieghoff Combi-Cocking Device is used to control all key operations such as opening or cocking and uncocking. Cocking and uncocking of the rifle is done completely silent and with minimal manual effort.

TRIGGER SHOE

Wide, ergonomic mount for right- or left-handed shooters, available as an option.

"CLICK-AND-GO" SLING SWIVEL

The sling swivels can be installed and removed with just the push of a button

"SAFE-TO-CARRY"

In the "Safe-to-carry" position, the action is locked in a slightly forward open position which indicates the safe position of the rifle when hunting in a group or at a shooting range.

STOCK OPTIONS

FIGURE:
Stock with Semprio cheek piece
Thumbhole stock with Semprio cheek piece

FIGURE:
Camouflage thumbhole stock in "Blaze Orange"
Camouflage stock in "Forest Green"

BARRELS & OPTIONS

SCOPE MOUNT

SIGHT
Various open sight options

BARREL OPTIONS
Fluted barrel, Ported barrel,
Threaded barrel with protector

RED DOT SIGHT ASSEMBLY
Available for Aimpoint, Docter Sight and many others

"PERFECT COMPANION IN ICY TEMPERATURES"

With my Semprio, the ergonomic advantage of the thumb hole stock comes into its own, as my shooting hand stays on the pistol grip compared to conventional repeating rifles. This helps me to fire a second shot fast and accurately even at long distances. Moreover, only large operating elements have to be moved when I'm reloading, which is a huge advantage in the icy temperatures of my home in Canada.

Savanna Köbisch

ENGRAVINGS

Engravings can lend character and individuality to a gun. Select one of our engraving options or create your own unique design in collaboration with our engravers.

Custom engraving:
African game with Arabesques accents

Engraving option:
